

W+D Quality Services

Optimize your operations with our portfolio of quality services

Maintain + Evolve W+D Machine Audit

Your basis for planning preventive maintenance and repair measures

The W+D Machine Audit is a high-quality service solution that will help you to optimize planning of maintenance and repair measures. During the audit, our W+D experts will inspect the most important components of your W+D machine and prepare a

detailed report on its condition. You will then be able to use this information to plan future investments.

Select the appropriate audit for your machine:

Mechanical W+D Machine Audit

- / A mechanical inspection will be performed on your W+D machine
- / Documentation of the current mechanical condition your W+D machine is in
- / Identification of any possible modernization measures, upgrades and TIPS

Electrical W+D Machine Audit

- / The electrical condition your W+D machine is in will be checked
- / The parameters of the drive component will be checked
- / Identification of any possible modernization measures, upgrades and TIPS

Custom-designed package of measures

The W+D Machine Audit begins with a detailed preliminary discussion in which

- / the nature
- / scope
- / time frame
- / machines in question and any potential main focus will be decided on together with you.

Note:

In order to perform the W+D Machine Audit, you have to arrange for your machine operator or maintenance expert to be available to provide support.

Scope of the W+D Machine Audit:

- / analysis that includes proposals on potential mechanical and electrical modernization measures and upgrades
- / recommendations on alternative solutions to spare parts that might no longer be available
- / a Machine Audit report that includes the measures we have identified that will help you to minimize downtime and increase the productivity of your W+D machine

Your advantages at a glance:

- / Professional inspection by our qualified W+D service experts
- / External, professional assessment of the current condition of your W+D machine
- / Expansion of your operators' and maintenance experts' machine expertise

Your benefits as a customer:

- / The audit report will provide you with a solid data basis for your future investment plans.
- / You will gain insights into the potential for improving the efficiency and performance of your W+D machine.
- / We will identify damage or defects to your W+D machine at an early point in time so that you can initiate preventive measures to avoid unnecessary repairs, reduce unexpected downtime and thus extend the service life of your machine

No matter which version of the Machine Audits you choose, our expert team at W+D will be happy to advise you. Contact your W+D customer consultant to learn more about our Machine Audits. We would be happy to provide you with a customized offer.
