

# W+D Quality Services

Improve your company's performance with the help of our comprehensive and high-quality service portfolio

## Train + Excel

### Certified W+D Online Training / E-Learning for Operators

#### Online training for optimal operation of your W+D machine

You will learn about your machine and its functions online independent of the time and location and you will be well-prepared to operate the machine after completing these training sessions. The six modules of this training and the knowledge you'll gain form the basis for all training courses based on these.

After successful participation, each participant will receive detailed training documents, a user manual, and a W+D training certificate.

**Prerequisite:** No special skills.

**Training languages:** English and German

**Target audience:** New customers and machine operators with and without prior knowledge

#### Content

**/ Safety instructions**

Explanation and instructions on general and machine-specific safety rules and regulations

**/ Paper and basic information**

Explanation of the various formats and basic information on handling paper

**/ Introduction to the machine**

Explanation of how the machine is built, its sections and the individual stations, explanation of all functional groups

**/ Introduction to the control panel/HMI**

Explanation of and introduction to the basic functions of the control panel for operators, explanation of the help functions

**/ Main functions of the machine**

Presentation of the main most important functions and components

**/ Machine overview**

Explanation of the main operating modes, emptying drying run, explanations of the spare parts catalog and the web shop

**Machine type:** W+D 410 Easy Enveloper

**Duration:** 6 training modules
