

W+D Double Counter

In envelope production, it is often necessary to mark smaller quantities inside a packaging unit. One of the most common examples of this is the overprinting of envelopes in minimum quantities. A single count at the machine is not capable of showing visible differences between the packaged quantity and the marked quantity. This can have negative effects on production.

Solution

With the W+D Double Counter conversion kit, we have created the possibility to eject a freely selectable intermediate quantity as well as the desired packaging unit. The counting process is performed using a light barrier, an initiator, or a mechanical contact. This modern device is also an ideal replacement for existing counters of older machine generations.

Advantages

- / Infinitely variable counted quantities from 1 to 9999 units on both counters
- / Accurate ejection of minimum quantities while maintaining full production output
- / Easy replacement of old devices with new ones, even by your own maintenance staff
- / The conversion kit also allows for the W+D Double Counter to be used with the newest generation of machines.

Suitable for

- / All W+D machine types with visual counters
- / Replacement for all W+D VZ 703 devices

Winkler+Dünnebier GmbH (W+D), part of global equipment manufacturer Barry-Wehmiller and its BW Converting Solutions platform of five industry leading brands, specializes in the design and manufacture of high-performance converting machinery for the tissue, nonwovens, hygiene, package-printing and bag-converting industries worldwide.

With more than 100 years of experience, W+D is the only engineering company to cover the entire envelope mail production value chain: from converting, printing and value ad enhancement systems for the manufacturing of envelopes to highly intelligent mail inserting technology. All with the aim to produce the most complex and personalized letter mail packages for postal system intake. Whether you produce envelopes for transactional mail, direct mail, lightweight e-commerce or special packaging made of paper – we are your solutions partner.
