

Repair of W+D 202 Flexo Printing Units and Tetraflex Plus

You will be all too familiar with

- / Plate cylinders not lowering even though the control system is set to automatic?
- / Plate cylinders not lifting when the machine is standing still?
- / The printing unit being surrounded by a pressure air hissing noise?
- / A lot of strength being required to align the printing unit?
- / The print images and the register no longer meeting expectations and specifications?

before (Printing Unit 202)

Our easy solution

Winkler+Dünnebier GmbH (W+D), part of global equipment manufacturer Barry-Wehmler and its BW Converting Solutions platform of five industry leading brands, specializes in the design and manufacture of high-performance converting machinery for the tissue, nonwovens, hygiene, package-printing and bag-converting industries worldwide.

With more than 100 years of experience, W+D is the only engineering company to cover the entire envelope mail production value chain: from converting, printing and value ad enhancement systems for the manufacturing of envelopes to highly intelligent mail inserting technology. All with the aim to produce the most complex and personalized letter mail packages for postal system intake. Whether you produce envelopes for transactional mail, direct mail, lightweight e-commerce or special packaging made of paper – we are your solutions partner.
