

W+D Powerflex Retrofit NT

Avoid the risk of long downtimes now with the new and better two-component electronics retrofit solution for the W+D 320 and W+D 321 control platform!

Solution

The new W+D Powerflex Retrofit NT replaces the existing frequency inverter/control combination discontinued by the supplier. The technology can be seamlessly integrated into the machine's existing electronics. Replaced and pre-programmed to the exact W+D factory specifications. Installation and guaranteed successful startup by a W+D technician will take 3-4 days.

Major components

- / Frequency inverter and control unit
- / W+D 320/321 machine communication module
- / CPU CompactLogix
- / Decentralized I/O modules

Advantages

- / Procurement of control or inverter
- / Reduction of investments in future replacement
- / Best performance with newest technology
- / Avoidance of long downtimes

Suitable for machine types

- W+D 320 s/n range: 15.590 - 16.246
- W+D 321 s/n range: 15.897 - 16.281

Don't wait for your obsolete inverter and controller to fail!

New two-component W+D Powerflex Retrofit NT: frequency inverter and control unit
