

W+D HMI Push Button Station

Before all else fails: the W+D Control Panel Replacement. Heavy use will make machine control panels suffer over the years. Unfortunately, these components are being discontinued and can no longer be supplied. We have now developed a 100% replacement for HMI control panels with a Ethernet connection. Thanks to the modular design of the panel including a touchscreen and a keypad, you can now also replace individual components by yourself.

Solution

With these control panels, we have developed a future-proof solution to ensure your usual operating processes and convenience in the long-term.

Advantages

- / Smooth and easy replacement of old ones by new ones
- / Clearly arranged operation and machine information on the 4.3" LCD TFT 16:9 touchscreen
- / No new panel boards and frame parts required for installation
- / Customary surface feel and reaction when pressed

Suitable for machine types

W+D 627 M15.855 – 16.370

Winkler+Dünnebier GmbH (W+D), part of global equipment manufacturer Barry-Wehmiller and its BW Converting Solutions platform of five industry leading brands, specializes in the design and manufacture of high-performance converting machinery for the tissue, nonwovens, hygiene, package-printing and bag-converting industries worldwide.

With more than 100 years of experience, W+D is the only engineering company to cover the entire envelope mail production value chain: from converting, printing and value ad enhancement systems for the manufacturing of envelopes to highly intelligent mail inserting technology. All with the aim to produce the most complex and personalized letter mail packages for postal system intake. Whether you produce envelopes for transactional mail, direct mail, lightweight e-commerce or special packaging made of paper – we are your solutions partner.
