

W+D Feeder-Carrier

W+D inserting systems are particularly variable due to their modular design. That makes it possible to move feeders within the machine. But they can also be used in different machines. Since the weight of the feeders varies between 20 kg and 60 kg, depending on the type, exchanging them can also be a real feat.

Solution

This problem is eliminated with the W+D Feeder-Carrier. The practical device ensures a quick, efficient and ergonomic exchange of your W+D feeders.

Advantages

Only one person is needed for an easy and safe feeder exchange using the W+D Feeder-Carrier.

Suitable for machine types

W+D BB550 XL, W+D BB700, W+D BB820

Technical Data

Hoist power: 150 kg

Type of hoist: manual

Hoist range: 100 – 1200 mm

Order number

Y 300.001.050
